PROFILE

Dedicated and detail-oriented Information Technology student at Sulaymaniyah Polytechnic University. Strong foundation in programming, web development, and computer systems. Passionate about solving real-world problems through technology. Known for being focused, fast-learning, and highly collaborative in academic environments.

EXPERIENCE

- **iQ Networks**
Summer Training / Internship Program July 2025 - August 2025
 - Participated in and successfully completed a professional internship program at a leading regional ISP.
 - Engaged in corporate IT environments to gain practical insights into networking and technology services.

PROJECTS

- **Decentralized Medical Record System with Predictive Analytics**
 - Architected a secure, decentralized framework for patient records across the Kurdistan region.
 - Integrated predictive analytics to identify health trends and support medical decisions.
 - Implemented modern security protocols to ensure data privacy and high availability.
- **Product Catalog Website (PHP & MySQL)**
 - Developed a full-stack platform with dynamic, category-based product listings.
 - Managed relational data using MySQL for efficient user and product information storage.
 - Engineered backend logic using PHP to ensure seamless data retrieval.
- **Secure User Authentication System**
 - Built a robust login and registration system using PHP and MySQL.
 - Implemented password hashing, form validation, and session handling.
