

ARA HIKMAT IBRAHIM

Full Stack & Mobile Application Developer

Sulaymaniyah, Iraq • +964 772 519 3883 • arahikmat04@gmail.com • github.com/Auxfoo • ara-hikmat.netlify.app

PROFESSIONAL SUMMARY

Full Stack and Mobile App Developer with 6+ months of freelance experience building responsive web and cross-platform applications. Final-year Information Technology student specializing in React.js, Laravel, and Flutter. Proficient in modern frameworks, backend systems, and mobile development. Dedicated to clean code practices and high-quality user experiences.

TECHNICAL SKILLS

Web: JavaScript (ES6+), React.js, Node.js, PHP, Laravel, HTML5, CSS3, Tailwind CSS.

Mobile: Flutter, React Native, Cross-platform Architecture, Mobile UI Optimization.

Systems: Python, Java, RESTful APIs, SQL & NoSQL Databases, Blockchain (Ethereum).

Tools: Git/GitHub, CI/CD, Netlify Deployment, Figma, UI/UX Design, Machine Learning.

KEY PROJECTS

E-Commerce Platform | *React.js, Node.js, MongoDB, Stripe API*

- Built full-featured shopping platform with authentication, payments, and admin dashboard; optimized database queries achieving 45% faster load times supporting 500+ concurrent users and reducing manual processing time by 60%.

Task Management Mobile App | *Flutter, Firebase, Provider State Management*

- Created cross-platform app with real-time sync and offline-first architecture for 200+ users; integrated Firebase Authentication and Cloud Firestore, achieving 4.6/5.0 user rating with Material Design UI.

HealthTrust - Blockchain Medical Records | *Blockchain, .NET Core, React, Ethereum, ML*

- Built decentralized medical record system for secure patient data sharing in Kurdistan; developed Ethereum smart contracts for patient-controlled access and integrated ML for predictive disease analytics while maintaining privacy.

PROFESSIONAL EXPERIENCE

Freelance Web & Mobile Developer | *September 2024 – Present*

- Delivered 8+ custom applications for clients across e-commerce and service industries, achieving 95% satisfaction rate and 100% on-time delivery.
- Developed responsive platforms using Laravel and React.js, increasing client traffic by 35% and mobile engagement by 50%.
- Built cross-platform mobile apps using Flutter with native features, reducing development time by 40%.

Summer Intern, IQ Online | *June 2025 – August 2025*

- Collaborated with development team to support internal systems, improving system response time by 30% for 50+ employees.
- Applied full-stack principles to optimize codebase and resolve 15+ technical debt issues; gained experience in Agile methodologies and professional workflows.

EDUCATION

Bachelor of Science in Information Technology | *Expected May 2026*

Sulaimani Polytechnic University (SPU), Sulaymaniyah, Iraq

- Major: Information Technology Department
- Current Status: Senior student (4th year)
- Relevant Coursework: Web Development, Mobile Application Design, Database Systems, Software Engineering, Data Structures & Algorithms

ADDITIONAL INFORMATION

- Languages: Kurdish (Native), English (Fluent), Arabic (Professional Working Proficiency)
- Certifications: Certificate of Internship Participation – IQ Online (August 2025)
